Leap Legal Software

TO WHOM IT MAY CONCERN

I have been using Leap expedite since July 2009 since its release as a trial version and I was highly impressed with the technical support and response to queries I have received from Leap Legal till today.

My special thanks to Marguerita Boucher for her untiring assistance in helping me and my staff to sort out the technical and user guidance issues at any time.

With a very small monthly fee I could achieve most of the expected outcomes in documents managing my client files.

The user friendly structure of the software is very helpful in completing the file tasks.

I would recommend this software for any newly admitted solicitor who will have constant assistance by accessing the services of Leap Legal Software group.

Yours faithfully,

SUCCESS LAWYERS and BARRISTERS
